

# Python Backend Developer (m/f/d)

Join Jay on an exciting journey to shape the future of streaming! Founded in 2022, we are a pioneering company specializing in shoppable content and in-stream bonus feature technology tailored for video streaming services. Our mission is to enhance viewer engagement, generate actionable insights, and drive revenue for our partners in the streaming industry. We create a rich, interactive environment for viewers by identifying elements within video scenes—such as cast, music, fashion, and design—and connecting them with shoppable products from online retailers.

## Job Summary

Together with you, we aim to further develop our technology. As a Backend Developer with expertise in AWS, you will support the development team in optimizing and creating new features.

## Your Responsibilities

- ▶ Develop and maintain scalable backend services and APIs using Python frameworks.
- ▶ Design and implement database structures and queries.
- ▶ Integrate cloud services and microservices architectures.
- ▶ Collaborate with frontend developers to implement APIs.
- ▶ Conduct code reviews and create technical documentation.
- ▶ Optimize the performance and scalability of existing systems.
- ▶ Contribute to the conceptualization of new features and technical solutions.

## Required Qualifications

- ▶ Several years of professional experience in backend development with Python
- ▶ Solid working knowledge of relational databases (MySQL, PostgreSQL)
- ▶ Experience in designing and implementing RESTful APIs
- ▶ Familiarity with the AWS cloud platform
- ▶ Strong analytical skills and a structured work approach
- ▶ Team and communication skills
- ▶ Well-organized and agile working style
- ▶ Good command of English, both written and spoken

## Preferred Qualifications

- ▶ Experience with Bash scripting
- ▶ Knowledge of graph databases (especially Neptune)
- ▶ Understanding of CI/CD processes and DevOps practices
- ▶ Experience with container technologies (Docker, Kubernetes)
- ▶ Proficiency in version control with Git
- ▶ German language proficiency

## Why Join us?

Be part of a fast-paced, agile environment where innovation and creativity are encouraged.

Collaborate with a passionate team dedicated to reshaping the future of video streaming.

## Interested?

Send us your informative application with CV to the address below. We look forward to hearing from you!
